Re: Dual Site Groundwater Operable Unit, Montrose and Del Amo Superfund Sites
104(e) requests & responses

Dear Leah,

I am enclosing a disc with copies of EPA's 104(e) information requests to, and responses from, the following entities: Jones Chemicals, BP Amoco, American Polystyrene Corp., PACCAR, Weatherford International, and Crossfield Products (not identified as a PRP for the Dual Site GW Operable Unit). Jones Chemicals and Weatherford have claimed that certain responses are confidential business information; therefore, those responses (including documents) are not included on this disc. With that exception, this disc contains all of the 104(e) responses EPA has received from the parties listed above. To date, EPA has not issued 104(e) requests to either Boeing or Dianorys/ECI.

Please do not hesitate to call me with questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Taly Jolish".

Taly Jolish
Assistant Regional Counsel
